

Using webmail (SOGGo)

Le webmail Hosterra Email vous permet de vous passer complètement de logiciel client. Il vous permet, depuis n'importe quel périphérique ayant accès à internet, de consulter et écrire vos mails, gérer vos agendas et listes de contact.

- Change mailbox name

Change mailbox name

To change your mailbox name (the name that will be displayed to your e-mail recipients), go to Preferences ("Settings" icon in the top left-hand corner of the interface). Click on the **Mail** item in the left-hand bar, then choose the **IMAP Accounts** tab. You'll then be able to set everything concerning your "identity", including the name that appears in your e-mail recipients' inboxes.
